PROFILE SUMMARY

Dual Master's professional (Statistics & Computer Science, SUST) bridging field MEAL workflows, protection data architecture, and predictive analytics, with 10+ years of statistical/analytical foundations and 3+ years of specialized UN/INGO experience across 26 Rohingya refugee camps in Cox's Bazar. Proven expertise in Protection Information Management (PIM), Child Protection (CPIMS+), 5W reporting (ActivityInfo), KoboToolbox/XLSForm design, Power BI/DAX dashboards, R Shiny, and SQL/Python data-validation pipelines. Directed data oversight of ~4,500 sensitive protection case records and delivered a ~40% reduction in institutional reporting overhead across 26 refugee camps. Committed to evidence-based decision-making, data protection standards, and building field-staff capacity in humanitarian information systems.

CORE CAPABILITIES & TECHNICAL TOOLCHAIN

Information Management & Systems: Protection Information Management (PIM), CPIMS+, ActivityInfo, 5W Reporting, Referral Trackers, Database Architecture

MEAL & Data Governance: Data Quality Assurance (DQA), Indicator Tracking Frameworks, Baseline/Endline Surveys, Responsible Data Protocols, Beneficiary Verification

Analytics & Data Science: Power BI (DAX, Power Query), R Shiny, Python (Pandas, NumPy, Scikit-learn), SQL/MySQL, SPSS, Stata, GIS Spatial Mapping, Time-Series (SARIMA)

Mobile Data Collection: KoboToolbox, XLSForm Authoring, ODK, Skip Logic & Validation Engineering

PROFESSIONAL EXPERIENCE

Senior Officer – Information Management
Jan 2026 – Jun 2026

UNHCR Partnership – CODEC EPRC Project | Cox's Bazar, Bangladesh

- Accelerated analytical delivery across **26 camps** by building automated **Power BI** dashboards and **Python/SQL** data pipelines, processing monthly case updates **30% faster**.
- Upheld **100% data integrity** across Child Protection, GBV, and Community-Based Protection programs by enforcing monthly DQA routines and automated SQL verification logic.
- Enhanced sector coordination with UNHCR and sector working groups by delivering monthly trend, gap, and demographic disaggregation analyses for executive decision-making.

Information Management Manager
Jan 2025 – Dec 2025

UNHCR Partnership – CODEC EPRC Project (promoted from IM Specialist) | Cox's Bazar, Bangladesh

- Reduced institutional reporting overhead by **~40%** across **26 refugee camps** by architecting and deploying **3 custom web-based IMS/PIMS platforms**.
- Maintained secure oversight of **~4,500 sensitive protection case records** by enforcing CPIMS+ data-protection protocols and synchronizing ActivityInfo 5W cluster matrix reporting.
- Strengthened organizational capacity by designing and facilitating technical training modules on KoboToolbox, DQA frameworks, and Power BI for **~150 field and programme staff** across CP, GBV, CBP and Education streams.
- Upheld data protection and confidentiality standards for highly sensitive protection data, in line with UN data-responsibility guidelines.

Information Management Specialist
Sep 2024 – Dec 2024

CODEC – Education & Protection for Refugee Children (EPRC) Project | Cox's Bazar, Bangladesh

- Standardized digital field collection by authoring complex **KoboToolbox XLSForms** equipped with dynamic skip logic, custom validation rules, and multilingual prompts across 26 Rohingya refugee camps.
- Ensured **100% compliant 5W indicator** submission to UN sector working groups by scripting automated data-preprocessing pipelines in Python and MS Excel, and by managing ActivityInfo (UNHCR) and CPIMS+ (UNICEF) datasets.

Research Intern – Statistics & Data Science
Jun 2022 – Jun 2024

Dept. of Computer Science & Engineering, Leading University | Sylhet, Bangladesh

- Co-authored **1 peer-reviewed research paper** and led statistical survey analysis evaluating digital privacy and online security risks among vulnerable demographics.
- Generated actionable spatio-temporal insights by combining **GIS** spatial mapping with SPSS/Stata regression modeling for population health and demographic studies; contributed to 20+ research projects.

Information Management Officer **Feb 2020 – May 2022**

Society for Sylhet Resources Advancement Community (SRAC) | Sylhet, Bangladesh

- Digitized **100% of beneficiary records** during COVID-19 operational disruptions by spearheading the shift from paper monitoring forms to web-based management tools.
- Maintained database integrity for donor-funded skill-development programs, ensuring accurate output/outcome indicator tracking for quarterly Monthly Progress Reports (MPRs) and audits.

PEER-REVIEWED PUBLICATION

Sarker, N., Sorkar, M. N. U., Sorkar, M. R. U., & Uddin, M. T. (2022). "Forecast, Trend, Growth, and Instability of Internet Users in Bangladesh." Computer Engineering and Intelligent Systems, 13(4). DOI: 10.7176/CEIS/13-4-01.

EDUCATION

M.Sc. in Computer Science & Engineering *(final result not published yet)* **2024**
Shahjalal University of Science and Technology (SUST)
Focus: Applied ML, Deep Learning, Low-Resource NLP, SQL Database Architecture.

M.Sc. in Statistics **2022**
Shahjalal University of Science and Technology (SUST)
Focus: Data Mining, Biostatistics, Time-Series Forecasting, Statistical Inference.

B.Sc. (Hons) in Statistics **2020**
Shahjalal University of Science and Technology (SUST)
Focus: Probability Theory, Survey Sampling, Demography, Multivariate Regression.

TRAINING & PROFESSIONAL DEVELOPMENT

- University Innovation Hub Program (UIHP – SUST Cohort-1), Bangladesh High Tech Park Authority — 6 months, 2024 (Strategic planning, innovation management, market research).
- 60-Hour Training Course on Research Techniques in Social Sciences, SUST Research Centre / Social Science Research Council, Ministry of Planning — 2022.
- Online professional courses (Udemy): Python & Django Framework for Beginners; Build 20 JavaScript Projects in 20 Days (HTML/CSS/JS); Text-to-Image AI Tools Masterclass.

SELECTED PROJECTS

- Spatial Analysis of COVID-19 Spread Across Bangladesh — District-level GIS mapping and inferential statistics to identify high-risk transmission areas (ArcGIS, R).
- Rainfall Prediction for Sylhet District — SARIMA time-series forecasting model (R).
- Bengali Math-Quest NLP System — Deep-learning question-answering system for Bengali-language mathematics (Python, TensorFlow).
- Demo IMS/PIMS Platforms (self-built, GitHub Pages): EPRC CPIMS Demo, BID MIS System, BIA MIS System — React/JS front-end, Firebase back-end, Office 365 Excel-integrated 3-layer collection → cleaning → reporting workflow.

LANGUAGES

English: Fluent (Reading, Writing, Speaking) | **Bengali:** Native / Fluent
